Summary

Full stack engineer building TypeScript interfaces, typed APIs and PostgreSQL workflows. Built and operated a marketplace repricing application and delivered client software from workflow design through deployment, troubleshooting and support.

Skills

- React, Next.js, TypeScript and Node.js
- Typed APIs, PostgreSQL and relational data modeling
- Workflow automation, AI agents and reviewable model output
- AWS, Docker, Kubernetes and production troubleshooting
- Customer-facing software delivery and support

Professional Experience

Founder / Product Engineer / Systems Lead

Technomancy IT LLC

2015 - Present

- Build and support TypeScript and Node.js client applications across interfaces, APIs, PostgreSQL data models and production infrastructure.
- Built a model-assisted meeting brief and connected authenticated tools through MCP, keeping a human review step around the output.

Senior Systems Engineer / Datacenter Architect

Front Range Internet Inc.

2015 - 2020

- Maintained production PHP and JavaScript services and replaced billing software; led NOC escalations for hosting and colocation customers.
- Migrated workloads from Hyper-V and VMware ESXi into Docker and Kubernetes; built diagnostics operators could use before escalating.

Systems / Software Engineer

Office Evolution

2014 - 2015

- Built Node.js provisioning automation and a front-desk tool for Wi-Fi access and troubleshooting.

Network & Systems Engineer

PlumChoice / Everon

2012 - 2014

- Built diagnostic tools and provided on-call support for managed client systems, endpoints and networks.

Infrastructure and Systems Focal

IBM

2010 - 2012

• Wrote Perl, Bash, VBA and PHP automation for enterprise support and built an internal backup tool to reduce licensing costs.

Selected Projects

ProofMark | Document signing and verification

Completed client contribution

• Built React and Next.js signing workflows with explicit recipient routing, verification and audit history.

NuPrice | Marketplace repricing

Long-term client engagement

2019 - 2021

• Built and operated a marketplace repricing app that ingested competitor data and applied customer-defined rules. Owned billing, support and technical operations.

Technomancy IT | Client service platform

Technomancy IT LLC

• Built a TypeScript and PostgreSQL support platform with tenant-scoped access, release checks and model-assisted workflows with human review.

Education

Front Range Community College

Computer Science coursework

2011 - 2013

Certifications and Training

CompTIA A+ | CompTIA | Earned

CompTIA Network+ | CompTIA | Earned

Additional training: Anthropic, AWS, Udemy
